

Barts and The London
School of Medicine and Dentistry

Welcome to the New International Health Programmes

Monday 17th September 2012
Perrin Lecture Theatre
9.30am

Programme Directors

Professor Trisha Greenhalgh

Professor in International Primary Care

Joint programmes director; module lead, *Primary health care: theory and practice*; module co-lead, *Narrative medicine in clinical practice: patients, families and teams*. Research interests include new technologies in health care, cross-cultural health, and the personal dimension of health and illness (narrative-based medicine).

Professor Allyson Pollock

Professor in Public Health Research and Policy

Joint Programme director. Research interests include globalisation, marketisation and privatisation of public services, pharmaceuticals, and health inequalities. She has strong links to developing public health programmes in low and middle income countries.
