9. What are the best things about the Psychiatry Module?			
Communication skills afternoon			
<b>Dr Biggs Dr Devine</b>			
The teaching			
The teams have been very welcoming, particularly at Barking Community Hospital. I feel we have seen a wide variety of patients and observed a number of the common conditions. Good opportunity for taster sessions in other specialities if desired.

10. In what way could the Psychiatry module be improved?

have a larger variety of placements within psychiatry in order to get a better understanding of the various disciplines

Too many lectures - considerable overlap.

We were required to often be in different places in the morning and afternoon and day to day. While I appreciate this allowed us to see a wide variety of patients, it was quite time consuming with all the travel and difficult to be in so many different places / find our way around them all.

11. Is there anything else you would like to tell us about the Psychiatry module?

The mock OSCE run at Goodmayes was really great. Very helpful to get some feedback.
