

Dear Colleague,

The CBME Team wishes you a very happy Christmas and all the best for a peaceful and productive 2020.

Thank you

We want to thank you for giving our students such valuable learning opportunities. We especially wish to acknowledge how so many of you went the extra mile despite current practice workload - stepping in to take students at short notice this term. Students and CBME staff are very grateful for your commitment to us.

****Changes to Year 4 Placements in 2020****

In order to make Year 4 placements easier to organise for practices and more productive for students we will be announcing a change of focus. This will include more 'generalist' experience, probably in service appointments and less emphasis on specialist cases in pre-booked clinics. We will share more details in January.

Tutor Development

1. **Local Educational Facilitator:** Dr Sally Smith, an experienced GP Tutor, has joined us on a part-time basis to provide local in-practice tutor development, advice and peer observation. She will be contacting new GP Tutors and is available for advice to improve educational quality by phone and on visits. Please contact Chloe Millan (c.millan@qmul.ac.uk) for more information.
2. **NESTT (North East London Student Tutor Training):** Due to popular demand we will be running another 1 day course in NE London in the spring - dates to follow in January
3. **Spring Education Day:** [Wednesday 26 February 2020](#) - HOLD THE DATE - *"Working together: co-creating the new CBME curriculum"*

With kindest regards - and hoping you have some restful days over the holiday

Anita Berlin, Lynne Magorrian and the whole CBME team
