4.) Scroll through the list below and click 'Add' next to each module you want to study. Remember that you must select the same subject in both semesters (SEM2 and SEM3) and your total credits must add up to 120. In this case, the student already has 60 credits of compulsory modules selected for them, so they only need to choose 4 more modules ($4 \times 15 = 60$). Please note that the language modules are not available for the January start programme. The only elective subjects available are Business and Politics, so you must select both as displayed in the screenshot below.

Students on the integrated **MSc FT Business and Management with IPM (Jan start)** must select Politics as their elective subject (in both Semesters).

Students on the **Economics and Finance Pathway** do not need to complete the module selection task because all their modules are compulsory and already confirmed.
