

Welcome to the School of Physical and Chemical Sciences

Introduction to the School and Central University Services

Head of School

Professor Adrian Bevan

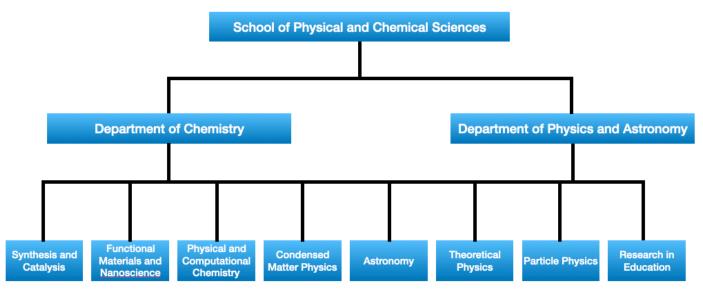

Welcome to our new School!

We are a new School formed in August 2021 from the existing School of Physics and Astronomy and the department of Chemistry which was in another School within the Faculty of Science and Engineering.

- Strengthen core disciplines which are vital in any research intensive university.
- Exploit the synergies between Physics and Chemistry in research and teaching.
- A better balance of undergraduate student numbers within the Faculty.
- Catalyse the development of new UG and PGT programmes, and new research initiatives.

Welcome to our new School!

High-level research area structure:

Staff teaching, independent project research opportunities and teaching cuts across the school. People with the best capabilities are delivering on your programmes to maximise the student experience

Our research informs the way that we teach on modules, and the content of modules. We always look for new opportunities to teach relevant and up to date material

The Queen Mary Education Approach: Opening the doors of opportunity

To deliver "an outstanding inclusive, world-class education and student experience, co-created with our diverse student body, enhanced by our world-leading research and latest technological developments"

Ambition – to be the most inclusive university of its kind

Four Pillars of excellence in education and student **experience**

Underpinning all programmes at **Queen Mary University of London**

Excellence in Education

The education we provide is led by world-class academics: our students are taught by the people who wrote the textbooks. Our strategy builds on our knowledge and subject excellence to ensure that students are co-creators in their education and the learning environment. Our educators are equipped to meet the needs of diverse learners, and can support students to achieve their full potential and be leaders in their chosen fields.

Excellence in Student Engagement

We will continually develop new approaches to support students in their learning and make sure they have a clear voice in the development of the University, working closely with Queen Mary Students' Union.

Bringing our Education Approach to life

The foundation of education – ACE – consists of 5 Interrelated Components.

Please click on each Component to find out more.

The Interrelated Components are underpinned by:

Tailored support from Advisors

Learning support:

- · writing support
- Get Ahead transition programme
- targeted learning surgeries
- mentoring
- coaching

Feedback on learning journey:

- · testing knowledge and understanding
- discussions with programme directors and module organisers

Development of key study and transferable skills

Delivery 23/24

- Mixed Mode Education (MME)
 - Bringing together technology and pedagogy to support an inclusive and engaging learning experience
- In first instance you should attend in person on campus
 - Maximise student experience
 - Whiteboards
 - Interaction with peers and staff
 - Learning community

- However, should there be an odd occasion where you cannot attend in person you may be able to join via Zoom
- Cannot guarantee the same student experience
- MME not in every session (don't assume!)
- Some classes like your lab classes have a mark associated with attendance and skills assessments with a qualifying mark.
 - This means you cannot pass this module if you do not meet the qualifying mark

What can you expect from us?

- A safe and supportive environment
- Academic, pastoral and developmental support
- Actively listen to concerns and feedback
- Listen to student voice
 - Student reps
 - Staff Student Liaison Committee
 - Coffee mornings/afternoons
- Make improvements and changes to the programmes based on your feedback (where possible)
 Module evaluations
 - SSLC

What can you expect from us?

Feedback on your work and progress

- Comes in different formats
- Unlikely to be a "model" answer or a mark scheme
- Formative
- Could be an informal discussion in the lab with a demonstrator
- To more formal written feedback
- Provides an opportunity for reflection
- Self assessment how can I improve?
- How can I act on this feedback for next time?

How to succeed?

Engagement

Thank you

SPCS Student Support

Mr Mason Newbury – Student Support Officer

Who is your Student Support Officer?

Mason Newbury

The best way to contact me:

Email: m.newbury@qmul.ac.uk

Office: Office 110, First Floor, GO Jones Building

Where to find me?

SPCS Admin Office

Room 110, first floor, GO Jones Building

Open Monday to Friday (10 – 4pm)

Here you will find the SPCS admin team including the student support officer.

What does the SSO do?

- First point of contact for all students and signposting support.
- Offer advice on matters which may be impeding your ability to study.
- Monitor attendance and engagement with your studies and coursework.
- Feedback and Improving the student experience.
- Oversee all EC claims made by Physics and Chemistry students.

If you need support don't leave it too late!

Please do not suffer in silence!

If we don't know that you are struggling, then we can't help you. The biggest regret of first year students is not asking for help sooner.

If you are having any difficulties at all with your studies, please let us know. We are here to help and can provide you with guidance and support.

If you do not feel comfortable approaching us, you can always talk to someone else in the School who you have found supportive (such as your advisor, a module organiser or teaching staff).

What are Extenuating Circumstances? (ECs)

An extenuating circumstances claim can be made if you are unable to submit a piece of work, attend a lab session or sit an exam. This will only be accepted if the reason meets the EC criteria.

Extenuating circumstances are usually personal or health problems that are both unforeseen and outside of your control.

Health problems include your emotional wellbeing and mental health, as well as your physical health.

Extenuating circumstances **do not** include computer problems, misreading your exam timetable, employment commitments, planned holidays or events, or local transport delays.

How do you make an EC claim?

Please visit MySIS to make an EC claim online.

There are two types of claim, a standard claim and a self-certify claim.

Standard claims must be **supported with evidence.** (for example, a GP letter if for ill-health).

Self-certify claims do not require evidence but must still meet the EC criteria.

Please note: Students can self-certify up to **3 times each year** (for up to 7 days each time) and cannot be submitted back-to-back to get a longer extension.

Staff Student Liaison Committee (SSLC)

The SSLC is a meeting held once every semester with the student reps and relevant staff.

It give students the opportunity to give feedback on their programme of study and wider aspects of their experience.
