

MRes in Linguistics (full time)

PROGRAMME INFORMATION

All new students will complete a Training Needs Assessment (TNA) that will determine whether you should follow a generic or advanced training pathway. Subject to your TNA, you will take the two 30-credit compulsory modules in **Introduction to Social Science 1 and 2** (semester one and two) or alternative modules may be recommended.

Full-time students will complete 180 credits in total comprising 75 credits of compulsory modules (including the above modules and the Dissertation Proseminar), 45 credits of optional modules and a 60-credit dissertation.

Compulsory	POLM082 Introduction to Social Science 1: Epistemology, Research Design, and Qualitative Methods (30 credits, Semester One) POLM083 Introduction to Social Science Research 2: Quantitative Methods and Data (30 credits, Semester Two) LIN7005 Dissertation Proseminar (15 credits)
Core	LIN7006 Dissertation in Linguistics (60 credits)
Elective	You will choose: Optional modules (45 credits: 30 in Semester One and 15 in Semester Two)

General pathway

Select from readings in sociolinguistics and formal linguistics as listed above.

For all pathways

Note: The following guides to research methods provide useful preparation for writing a dissertation in linguistics. Many chapters are relevant mostly for sociolinguistics and experimental research projects, but for guidance on research in formal linguistics, see the chapters on judgment data, fieldwork, and constructing and supporting a linguistic analysis in the Podesva & Sharma volume.

Litosseliti, Lia. 2018 (2nd ed). *Research Methods in Linguistics*. Basingstoke: Continuum.

Podesva, Robert, and Devyani Sharma (eds.) 2013. *Research Methods in Linguistics*. Cambridge: Cambridge University Press.

MODULE REGISTRATION

How do I register for my modules?

You will register for your modules using [MySIS](#). The Module Registration Task will become available to you after you have completed the Pre-Enrolment task. Please log in and select the 'Module Registration' option. Your core or compulsory modules may have already been pre-selected for you and they cannot be changed.

Before you start making module selections in MySIS please read the guidance below.

When you come to select the elective modules that you want to take you will be able to review the description of a module within MySIS by clicking on the module name.

It is not possible to submit or approve a partial module selection, so make sure you have selected modules from both Semesters.

Please submit your selections in MySIS by 18th September 2024.

Your submission will be considered after this date in the School's approval process and may not be confirmed until after the Induction Meeting, where you will also be allocated an academic adviser who can offer further advice on your choice of elective modules.

Some modules may become over or under subscribed, so you may be asked to change your selection at that time. You can request changes to approved modules within the first two weeks of Semester 1 using the same MySIS task.

To make this process easier, we will ask you to provide us with some reserve modules. When you submit your main selection of modules, MySIS will open a new screen for you to select your reserves. You will need to select the required number of reserve modules from each selection box to be able to complete the submission.

Please consider your reserve modules carefully and ensure they are modules you would be happy to take. We will make every effort to allocate you to your first-choice modules, but this may not always be possible.

Access to materials in QMplus (online learning environment) will be available within 24 hours of your module registration being approved.

Guidance on making your selections

If you have any questions regarding your selections, you can contact the MRes Convenor, Prof Linnaea Stockall via email (l.stockall@qmul.ac.uk) in advance of the 18th September deadline.

Please view the list of modules for your programme on the following page before making your selections in MySIS.

Module descriptions are available from the QMUL Module Directory at www.qmul.ac.uk/modules.
Module timetables are published from 14th August at timetables.qmul.ac.uk.
