Student Voice | Module Organiser response to Module Evaluation Results

Module Code: MTH6158	Semester/Year: Spring 2024	School: SMS
Module Title: Ring Theory		
Module Convenor/Organiser: Felipe Rincón		
<p>Were there any changes made to the module for this academic year due to last year's feedback (if applicable):</p> <p>Yes, coursework was aligned even more with exam questions, the number of available marks was made explicit in each question of the coursework assignments, and specific topics to cover every week are now posted on QMPlus.</p>		
<p>What were the Module strengths according to the student feedback?</p> <p>Students liked the lecturing style, the clarity of explanations, and the general way the module was taught. Many of them felt the module challenged them to their best.</p>		
<p>What are the Areas for improvement according to the student feedback?</p> <p>Students wanted feedback on the coursework submissions provided more promptly. Lecture notes were not very easy to navigate. Students felt the coursework was too long.</p>		
<p>Additional Comments/Actions by the MO for next time the module runs</p> <p>Coursework will be shortened slightly, and lecture notes will clearly indicate the week they correspond to.</p>		
Form completed by: Felipe Rincón	Form completed on: 12/04/2024	

*this form must be completed and published on QMPlus module page alongside a message to students on the module. The form must also be sent to the programme director and the DoE.
