There will also be three 2-hour seminars in your timetable this semester; one in week 3, one in week 6, and one in week 9. The exact timing will depend on which group and room you have been allocated. Please check your QM timetable for details.

Note, in addition to the above, there are some one-off sessions in your timetable for PSY720P Research Project. As these are not regularly happening every week and do not take place on the same days, please keep an eye on the announcements from the module for these. The first one will be taking place in week 3, on Tuesday 11.00-13.00 in GO Jones LT.
