

ACCESSIBILITY MATTERS

MAKE YOUR LEARNING MATERIAL ACCESSIBLE

Equal Opportunity for All

By making your material accessible, it ensures students with visual and auditory disabilities can access and benefit from the same education as their peers.

Improved Learning Outcomes

Accessibility benefits everyone! For example, captions help not only deaf students but also those in noisy environments or non-native speakers. By providing accessible avenues to access material, your students learning will improve across the board.

Promotes Independent Learning

Accessible formats (e.g., screen-reader-friendly text, flexible navigation) empower students to study at their own pace and style.

Ethical Responsibility

Inclusive education respects the needs of all individuals. At Queen Mary University, we are proud of our diversity and offer support to students of all learning needs.

Increases Student Engagement

When learning materials are inclusive, students are more likely to stay engaged and less likely to feel excluded or fall behind.

Future-Proofs Educational Content

Designing for accessibility often leads to more creative, flexible, and tech-enhanced teaching methods that benefit all learners. Accessible content is generally better structured and easier to adapt to new technologies.

Fosters Inclusion and Belonging

When students see their needs considered, it builds a sense of community and belonging, which enhances motivation and participation.
