

Student Support at Barts and The London

Guide for GP Tutors

If you have concerns about a student and think they may require support, please contact the student support office on smd-student-support@qmul.ac.uk. Alternatively please contact the module lead if you want advice. Their contact details can be found on our website www.gptutorbartsandthelondon.org

Please note:

If a student has physical or psychological problems which need urgent attention, these should be managed through normal NHS channels.
