

**Module Title:** Language Acquisition

**Module Code:** LIN101

**Credit Value:** 15

**Level:** 4

**Pre-requisite modules:**

### **Content Description**

This module will investigate the process of first language acquisition. The module will look at models and theories that have arisen from different schools of thought. It explores the different processes of first language acquisition and stages of development (phonological, lexical, syntactic, semantic and pragmatic), following the child through their first few years of life.
