

**Module Title:** Advanced Semantics: Puzzles in Meaning

**Module Code:** LIN6049

**Credit Value:** 15

**Level:** 6

**Pre-requisite modules:**

### **Content Description**

This is a problem-based module that will enable you to get hands-on experience on working through data sets from English and from other languages, and to learn how to link up your analyses to theories on the topic. This module will also enable you to further develop your critical thinking and problem-solving skills more generally.
