

Module Title: Chinese III

Module Code: CHI6200

Credit Value: 30

Level: 6

Pre-requisite modules:

Content Description

This module is for students who have completed Chinese II Intensive, and spent a semester or year abroad. The focus will be on fluency, expansion of vocabulary, grammatical accuracy, advanced oral and reading comprehension, and development of writing skills, to the point where graduates are capable of using Chinese as a working language for employment or further study / research, and are aware of the cultural imperatives for operating in such an environment.
